SUMMARY

A dedicated and adaptable Computer Science Engineering graduate with strong skills in web development and programming. Motivated to contribute effectively to organizational goals through innovation, collaboration, and a problem-solving mindset. Seeking an opportunity to enhance my technical expertise while contributing to impactful software solutions.

EDUCATION

Bachelor of Technology in Computer Science and Engineering
Patel College of Science and Technology

April 2022 – May 2026
Bhopal, Madhya Pradesh

Model H.S. School, Ichhawar
12th

2020 – 2021
(90.4%)

Model H.S. School, Ichhawar
10th

2018 – 2019
(90.2%)

EXPERIENCE

Web Developer Intern
Iveys Innovations Pvt. Ltd

(3 Months)
Remote

- Contributed to the development of responsive web applications using HTML, CSS, JavaScript, and Django.
- Worked on backend integration and database management for client-based projects.
- Improved website performance and maintained code quality through version control using Git and GitHub.
- Collaborated with team members in an Agile environment, ensuring timely delivery of project modules.

PROJECTS

Search Dictionary | *Html, Css, JavaScript, Fetch API's* | [GitHub](#)

- Built an interactive Dictionary App using HTML, CSS, and JavaScript.
- Used Fetch API to retrieve word definitions, phonetics, parts of speech, and example sentences.
- Added Hindi translation functionality to improve accessibility for native language users.
- Implemented audio pronunciation playback for correct word learning.
- Designed a clean and responsive UI to provide smooth user experience.
- Enabled Enter key search input to enhance usability and efficiency.

Universe Solar System (Web Animation Project) | *Html, Css, JavaScript* | [GitHub](#)

- Developed an interactive solar system visualization using **HTML**, **CSS**, and **JavaScript** where planets revolve around the sun with smooth animations.
- Focused on responsive UI design, DOM manipulation, and CSS keyframe animation to create a realistic orbital motion effect.
- This project demonstrates creativity in frontend development and enhances conceptual understanding of animation logic on the web.

GadgetHub (E-Commerce Web Application) | *JavaScript, HTML, CSS, Java, Oracle Database, Bootstrap, Fetch API* | [GitHub](#)

- Built a complete e-commerce web application for gadget shopping using **HTML**, **CSS**, **Bootstrap**, **JavaScript** for front-end and **Java (Servlet/JSP)** with **Oracle DB** for backend.
- Implemented features like product listing, user login/authentication, cart management, and order processing.
- Focused on clean UI, responsive layout, and efficient backend connectivity.

TECHNICAL SKILLS

Languages: JavaScript, SQL (Oracle, MySQL), HTML, CSS

Frameworks: React.js, FastAPI, Django

Libraries & Tools: Tailwind CSS, Bootstrap

Databases: Oracle MySQL

Developer Tools: Git, AWS, Vercel, Netlify, VS Code, Visual Studio, Workbench
